

The recommendation letter

I am the sponsor of the multimedia dancing show, being performed by Mrs. Katja Vidmar with her co-dancers. We traveled with it around Slovenia in the year 2017. It is a charity performance, from which all the money gathered is intended for the institution **Mali vitez**. These are children, who have overcome cancer.

The show is of an exceptional importance as it shows, beside beautiful dance, a story of a small boy, who has been suffering from this serious illness and is telling us, how he is treated by the irradiation. The story touches each of us. At the same time we are acquainted with a fatal disease of a young female doctor with the dancing of twelve dancers. She gets sick, starts to struggle and hopes.

Cancer does not choose, it crawls into the lives of many individuals silently. One needs strength and love to overcome all the difficulties, the treatments are indispensable and all young, who have had such an experience in their childhood, are never the same as they were before the illness had appeared. That is why the institution Mali vitez helps them, organizes holidays, meetings, buys all sorts of devices, helps the youth on their path of growing up on their life course with consequences.

Katja Vidmar is an exceptional personality, her dance group has practised for the show for several months, all her work has been done without any payment, voluntarily. They are worthy of all respect.

They raise awareness, help and offer numerous dance pleasures to visitors, so I highly recommend the show.

As the Human Rights Ombudsman of the Republic of Slovenia I am well aware of the charity note, which is the golden thread of connecting people, who think and do well. Life is really becoming a value that we are beginning to appreciate.

Vlasta Nussdorfer
